MATTER OF INTEREST.

Legislative Representation and the Census of Kentucky.

THE APPORTIONMENT IS UNEQUAL

Louisville Evening Post.

The citizens of Kentucky have a pro found interest in the state consus. This census is the basis of representation in the Kentucky Legislature.

The increase in the state has been 15%, or from 1,858,635 to 2,147,174, or 289,-588. Of that increase 43,951 is credited to Jefferson county, or one-sixth of the whole. Campbell county has increased 10,165: Kenton, 9,439; Anderson falls off lin, 415; Hancock, 300; Mercer, 608; Owen, 123; Pendleton, 1,339; Warren,

Outside of the counties where there are large towns, the increase has been in the mountain districts.

One hundred members of the House means one member to 21,471 inhabitants. That would give Jefferson county eleven instead of seven members; it would give Christian about two, Warren one, Fayette two, Campbell three,

Kenton three. Now Adair and Cumberland have one Representative, and Allen has one, but Allen has only 14,657, whereas Adair

has 14,888. Anderson has one Representative, with a population of 10,051; Ballard and Carlisle have a Representative together, though Ballard has 10,761 inhabitants and Carlisle 10,195.

The Seventh Representative is composed of Bell, 15,701; Harlan, 18,570; Perry, 8,276; Leslie, 6,733; in all, 48,680, whereas Woodford has one Representative with 18,154. Woodford must find a county of its own size in order to make one district, whereas Harlan and Leslie are entitled to one Representative, and Bell and Perry to another.

Boone has lost 1,076 inhabitants; it has a Representative with 11,170 inhabitants, yet Boyd, with 18,834, has to join Lawrence with 19,612 to get one Representative. Lawrence has gained 1,910, and Boyd has gained 4,801.

Boyle has but 13,817; joined with Anderson they would constitute one legislative district. They now have one

Caldwell, with a population of 14,510, has a Representative, but Carter, with a population of 20,228-increase 3,024was joined to Elliott with 10,387 to make a Representative district.

Clark, 16,694, is one district; Clay, 15,364; Jackson, 10,561, and Owsley, 6,874, make another.

This suffices to show, first, that the counties of Central Kentucky have increased slightly, whereas the countles of Eastern Kentucky have increased largely; second, that the gross injustice of the apportionment of 1891 has been intensified from year to year, and is no longer tolerable.

Frederick Law Olmstead, who advocates the abolishment of billboards because of their inartistic and unsightly character, is the landscape architect who laid out Delaware Park, Buffalo, a part of which is to be used for the Pan-American Exposition in 1901.

We have only admiration for the courage, enterprise, liberality and energy displayed by the city at the foot of the lake in preparing for the great Exposition which is to be held next year. If ever success was earned, Buffalo has earned it. The city deserves to be filled with visitors during the life of the Pan-American Exposition and to reap a rich harvest of honor, glory and substantial gains.-Cleveland Leader.

"We have never advertised the resources of our state half enough," says The Times-Democrat of New Orleans in an article upon the Pan-American Exposition, in which it urges an adeof other states, and the opportunity al value.

The enthusiasm and interest displayed by the people of southern California in the preparation of their great display of products for the Pan-American Exposition present a lesson and an example for all citizens to contemplate. American enterprise seems to have a very high development in "the glorious climate of California." The Californians purpose to make a very large and effective display.

One of the most conspicuous features of the Niagara Falls landscape now is a mammoth sign handsomely lettered thus: "Pan-American Exposition, Buffalo, N. Y., 1901." There are several similar signboards placed where thousands of people passing and repassing upon the great railroads may in this way have their attention called to the great event of next year which so vitally interests all the states and countries of the western hemisphere.

ARGENTINE REPUBLIC.

Will Be Represented by a Fine Building and Exhibit at Buffalo.

The Argentine Republic will have a building and exhibit at the Pan-American Exposition in Buffalo next summer which will represent fittingly the progressive institutions and commercial and industrial prosperity of that South American republic. The sum of \$30,-000 has been appropriated by the Argentine government for this purpose.

Argentine merchants, and especially those of Buenos Agres, appreciate the importance of representation at the Pan-American. Many agricultural and industrial organizations are notifying the minister of agriculture that they intend to send exhibits. It is probable the government will have its exhibit at the Paris exposition brought to Buffalo at the close of the French fair.

Buffalo's Mayor and the Exposition. The Hon. Conrad Diebl, mayor of Buffalo, the home of the Pan-American Exposition, has great faith in the success of the enterprise and is more than pleased with the progress that is being made on the work of construction. He says: "I frequently drive out there and look over the buildings. It phenomenal the rapidity with which the work is carried forward. The men who are directing the Exposition affairs are shrewd calculators, and they are going to make this enterprise the wonder of the world. Outsiders are becoming enthusiastic over it. Thousands of people who did not go to the World's fair at Chicago will some to the Pan-American. Let everybody prepare to receive them and give them a good time."
